- Back-end :   Node.js   Express.js
- Database :   MongoDB   MySQL

- Creativity
- Time-Management.
- Flexibility
- Problem solving.
- Teamwork.

PERSONAL PROJECTS

Smarteen-Card (2024-25)

- Developed a smart card system targeted at teenagers (ages 14–18) for secure online transactions using RFID technology.

- Implemented RFID-based payment functionality allowing card usage through scanners or key-based access.

- Designed a dual-access control system enabling both parents and teens to manage card activities.

- Built a parent portal with features such as card recharge, transaction history tracking, and activity monitoring.

- Enabled admin-driven card issuance based on parent requests, ensuring controlled access and usability.

OTHER PROJECTS

NiviaSport Clone   (July-2025)

- Developed "**NiviaSport Clone**" a multi-page sports eCommerce website using HTML and CSS. The site features dedicated pages for Football, Basketball, Badminton, Volleyball, and Turf, with a clean layout, responsive design, and intuitive navigation. Built using semantic HTML and modular CSS for better maintainability and user experience.

- Live Preview :   NiviasportClone.com

Zay Shop - *Responsive eCommerce Homepage*   (July-2025)

- Developed a responsive eCommerce homepage for **"Zay Shop"** using HTML, CSS, and Bootstrap. Optimized for mobile, tablet, and laptop screens with clean design, intuitive navigation, and adaptive layout.

- Live Preview :   Zay-Shop.com
